

OSSIPEE
PARKS & RECREATION

Sponsorship Program

Overview

The Ossipee Parks and Recreation Department provides structured recreational programming for participants of all ages and annually enrolls individuals in recreational programming ranging from summer day camp, youth sports, senior trips, fitness classes, and much more.

Mission

To enrich the lives of the residents of Ossipee by providing safe, welcoming parks and recreation facilities and affordable, diverse recreation and cultural opportunities for people of all ages to play, learn, and build community. We create community through people, parks, and programs.

The Town of Ossipee is known for its beautiful mountains and the abundance of outdoor recreational opportunities available to its residents and surrounding communities. Each year Constitution Parks is host to community leagues and local tournaments. On any given night over 100 people will be at the park taking in a sporting event, enjoying the playground, or playing with their pup at the Dog Park. Ossipee youth sports programs continually are among the best in Carroll County, having won numerous Carroll County and Lake Region Championships, and the Parks and Recreation Department can help you reach a vast audience through sponsorship opportunities. The community prides itself on its entire park and recreation system. This is evident in the decades of generous support shown by Ossipee's business and non-profit community, as well as generous contributions from the public. Today, financial, and in-kind support is even more critical as the investment needed to sustain and improve the parks, facilities and recreation programs continues to increase. Please join us in our mission to improve public spaces while sustaining the parks and recreation system. We look forward to working with you!

**“OSS�PEE
REPRESENTS A TRULY
DISTINCTIVE SLICE
OF AMERICA”**

The Town is a geologist’s dream, with portions of the volcanic "Ring Dyke"(roughly circular in plan, formed by upwelling of magma in a conical or cylindrical fracture system), from the Ossipee Mountains still visible. Much of the Town’s soil is made of fine sand and gravel, left behind by the glaciers after the last ice age.
