EMERGENCY OPERATIONS PLAN – EXECUTIVE SUMMARY

The Town of Ossipee has developed an Emergency Operations Plan (EOP) in cooperation with the State of New Hampshire Bureau of Emergency Management. The document incorporates specific hazard plans for a myriad of emergencies ranging from hurricanes to downed aircraft to a major conflagration. The EOP is divided into the following emergency support functions:

- Direction and Control
- Communications
- Warning of Emergency
- Radiological
- Law Enforcement
- Fire Suppression/Rescue
- Emergency Medical
- Evacuation
- Resource Management
- Health & Medical
- Sheltering & Feeding
- Public Information
- Recovery and Mitigation

Each emergency support function provides detailed information in each category to work towards a successful conclusion to the emergency. The plan is updated and tested annually by the Town of Ossipee Office of Emergency Management.
